(54) Title: SEALED CONTAINER FOR TEMPORARILY INACTIVATING A CELL PHONE

(57) Abstract: A wireless communication device such as
a cell phone is rendered temporarily inoperable by enclos-
ing the device in a container such as a heat sealable bag
(1) which has been metallized so that when the device (2)
is sealed in the container (1) it is surrounded by a metal
layer (9) which blocks signals to and from the device (3)
to thereby render it inoperable. The device is sealed within
the container (1) by a seal such as a heat seal which will re-
veal any attempt to remove the device from the container.
